DETAILED ACTION

Applicant's amendment filed May 8, 2008 has been fully reviewed and considered by the examiner. The indicated allowability of claim 2 has been withdrawn after a reconsideration of the Clark et al patent (U.S. Patent No. 5,870,896).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are rejected upon a cancelled claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Clark et al (U.S. Patent No. 5,870,896). The steam valve of Clark et al comprises a first valve device (12) and a second valve device (16), the steam valve including a strainer (28) including a closing portion (30), col. 3, lines 25-52. The closing portion (30) is positioned at a position opposite to a side of the main steam outlet as illustrated in Figure 1.

Allowable Subject Matter

Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 5-8 and 10-34 are allowed.
